PROFESSIONAL EXPERIENCE

Product Manager Intern

Value Aligners

Oct 2025 – Mar 2026

Sunnyvale, CA

- Led end-to-end product development of 4 Agentic AI products in 6 months — from discovery through go-to-market launch — targeting budget-constrained SMBs in the cybersecurity space
- Conducted 30+ SMB user interviews as part of product discovery, directly informing feature prioritization and roadmap decisions across all 4 products
- Reduced sprint review cycles from 5 to 2 days by identifying and resolving release bottlenecks, improving engineering throughput across cross teams
- Wrote PRDs and defined acceptance criteria for each product, driving stakeholder alignment across engineering, design, and business teams through regular syncs
- Platform navigates 9,000+ cybersecurity solutions, matching SMBs by company profile, need, and budget

Product Manager Intern

JC Foundation

Jul 2025 – Oct 2025

Mumbai, India

- Conducted 30+ oncologist interviews as part of product discovery, surfacing workflow inefficiencies that directly informed feature prioritization and roadmap decisions
- Analyzed patient journey data to identify gaps, leading to a 15% reduction in wait times
- Developed insights from 450+ interaction datasets to improve engagement metrics (↑180% response rate, ↑100% session time)
- Defined product roadmap based on qualitative and quantitative analysis of healthcare delivery challenges

Software Developer Intern

NTPC Ltd.

Oct 2023 – Jan 2024

Noida, India

- Recommended RAG-based architecture for 'Jyoti', NTPC's enterprise AI chatbot, to enable accurate retrieval of project records and company data for 20,000+ employees
- Defined data representation requirements in collaboration with stakeholders, ensuring intuitive access to project records and operational data across India's largest power utility organization

Full-Stack Developer

Scrollify

Jan 2023 – Oct 2023

Bengaluru, India

- Built backend architecture for a creator tool using AWS EC2 and S3, supporting 2x traffic growth and reducing media load latency by ~30%
- Contributed to SEO strategy that drove 50% organic traffic growth and 3,000+ monthly new user signups

PROJECTS

[MessIT](#) | React Native, MongoDB, Firebase, REST APIs

- Identified inefficiencies in manual mess-menu processes through student surveys and observation, then led 0→1 development of a digital dining platform now with 50,000+ downloads on the Google Play Store

[BunkBuddies](#) | Next.js, React.js, Node.js, Google Analytics

- Founded the university's first roommate matching platform, validating demand through peer outreach and acquiring 1,250+ users on Day 1

LEADERSHIP EXPERIENCE

Student Director

Hostel & Dining Operations

Aug 2024 – Jun 2025

VIT University

- Built a digitized feedback system for hostel dining serving 30,000+ students, collecting 200+ responses in month one and noticeably improving resident satisfaction scores

General Secretary | Treasurer

VinnovateIT - Innovation & Incubation lab of VIT University

Sep 2021 – Dec 2024

- Coordinated Vinhack'23 with 1,800+ participants and led recruitment, mentorship of 70+ members across strategy, technical reviews, and operations

CERTIFICATIONS & AWARDS

- Certified Scrum Product Owner (CSPO)
- Certified Ethical Hacker (CEH) - EC-Council
- 1st Runner-up, National Civic-Tech Hackathon - CIIE.CO, Indian Institute of Management, Ahmedabad
- Published peer-reviewed research on an AI-powered Smart Refrigerator leveraging YOLOv10 for real-time food inventory and quality tracking
